Explain your vision for this dance? What do you see on the stage?

Why do you want to choreograph this dance?

As a choreographer, it is your responsibility to see your dancers are well-rehearsed and understand your vision. How will you do this? Will you use any research, readings, letters, personal experiences, videos, photos etc.? Explain.

As a choreographer, it is common to give your dancers a movement phrase and ask them to manipulate this phrase and/or to create their own movement which you than manipulate? Will you be using this technique? Explain.

What are your ideas for a costume?

Do you have a title?

Do you have any special requests and/or needs for this dance?

I understand as a choreographer it is my responsibility to be prepared for EVERY rehearsal. I understand it is my obligation to the company that my dance is well-rehearsed and complete in its entirety. I take full responsibility of my dance.
